

Report of Junior Camp Committee, 1900.

Nov 30/00.

The Junior Camp was held this year from Thursday June 28th. to Saturday July 14th. It was a record Camp in point of numbers as is shown by the following figures,

45 Boys, 6 Leaders, 17 Visitors, & Mr. Calhoun and Mr. Brown
in charge.

Fifteen boys joined the Dep't to go to Camp.

Six tents were used for sleeping in and some of the boys slept in the house; the tents were in charge of the following leaders,

Messrs. A.Peden, H.Beall, D.McGavin, G.Shaw, W.K.L.Greig
and Mr. Brown.

The weather was very rainy, 11 days out of 16 being wet, and consequently it was very hard to keep the boys amused and in control.

Morning and evening prayers were held each ~~day~~ day, three Friday night meetings and on Sundays three services, Church, afternoon Bible class and evening song service.

The cook was only fairly satisfactory and was disgustingly dirty in his work—though some excuse is found in the fact that the kitchen is too small to prepare food in for such a number.

The financial statement is attached and shows a balance of \$ 5.05 in the bank.

The Camp received a s a donation from Mr. Marotte the tea, coffee and spices ordered from Marotte Leblanc and Co.

The following suggestions are referred to the Permanent Camp Com'te,

- 1.) That the party which goes out previous to the Junior Advance party should get accurate information as to the state of the Camp equipment.
- 2.) That a mail-box be put up in the house where all outgoing mail may be placed, also that the teamster be provided with a bag to carry the mail back and forth in.
- 3.) That the chimney be fixed in some way to prevent its smoking.
- 4.) That more butter plates and salt cellars be purchased.
- 5.) That a rainbarrel or pump be installed beside the kitchen in order that the cook may have no excuse for not washing the dishes properly.
- 6.) That some sort of cover or boathouse be provided under which the boats may be put at night also rope painters and rope and anchor for each boat.
- 7.) That rubber sheets be purchased for the tents as part of the Camp equipment.
- 8.) That an athletic field be procured as soon as possible.

Respectfully submitted

Chas. S. Paterson.

Chairman Jr. Camp. Com'te
